

Reverse Left

1st reference,
The kerb will just be visible in
the left door mirror

You can use this also
as a reference to get
round the corner

Looking out the back window
looking for the kerb to be in the
center of the rear window and
then straightening the wheels.

Hold the clutch at
the biting point to
maintain a slow speed

Make regular all round
observations

Pause to allow other
road users to pass

Check over your right
shoulder before turning

You may need to return to
your start position to allow
other vehicles to pass
